# Introduction

The TW2824 has four high quality NTSC/ PAL video decoders, dual color display controllers and dual video encoders.

The TW2824 contains four 10bit Analogto-Digital converters, proprietary digital gain/clamp controller, high quality Y/C separator to reduce cross-noise and high performance dual scaler to provide various pictures.

Four built-in motion and blind detectors can increase the feature of security system.

The TW2824 has flexible video display controller including QUAD and MUX basic functions.

The TW2824 also has excellent graphic overlay function which displays character/ bitmap, box and mouse pointer.

The TW2824 contains two video encoders with four 10bit Digital-to-Analog converters to provide 2 composite or S-video.

The TW2824 can be extended up to 8/12/ 16 channel video controller using chip-tochip cascade connection.
